ABOUT ME

Passionate Software Engineering student seeking an internship to leverage skills in programming, system design, and problem-solving while gaining practical industry experience and contributing to impactful software solutions.

EXPERIENCES

Bachelor's Degree in Software Engineering

Prince Sattam Bin Abdulaziz University
Cumulative GPA : 4.35 / 5.0

Meta Front-End Developer

Meta (21/12/2025)
Completed a 9-course online program including: HTML, CSS, JavaScript, React, Responsive Design, Git, Capstone Project

EXPERIENCES

Freelance Mobile Application TWQ3 (2026)

A Flutter & Firebase mobile app where participants predict football match results and compete on live leaderboards.

- Included an admin dashboard for managing rounds, questions, and results
- Implemented an automated grading system that calculates points instantly upon result entry
- Integrated real-time push notifications and media uploads via Cloudinary

Graduation Project Risha Mobile App (2026)

- Developed a gamified habit-building app for children (ages 5–12) to help parents manage routines and track progress
- Applied behavioral science principles to design system architecture and database
- Created a secure, child-friendly user interface

COURSES

- Build Wireframes and Low-Fidelity Prototypes
- Create High-Fidelity Designs and Prototypes in Figma
- Conduct UX Research and Test Early Concepts

SKILLS

- UX Design
- Usability Testing
- Database Management
- Application Programming Interfaces (API)
- Java
- Prototyping
- Software Development
- Figma (Design Software)
